

GET HAPPY!! Records

THEY COULD HAVE BEEN BIGGER THAN EMI

A discography of now defunct independent record labels that released vinyl

Hi

Thanks for coming over.

The 3rd edition Part 1 (Europe) is **out now!**

Cause the big amount of new entries (double of the 2nd edition) I have to split the work.

Part 1 contains european labels only.

700 pages / over 4.300 labels / over 3.800 pictures (logos / covers)

Part 2 (out spring/summer 2014) will contain Nord-/South-America, Asia, Australia, Africa.

LABELS SORTED BY COUNTRIES

► refers to labels that may be found in the STOP PRESS section, i.e., those whose entry was made after completing the layout of the book.

✪ refers to labels which are active again and release records again after a hiatus. To my mind these are labels which are important in their first phase. Often these labels were revived in order to reissue their back catalogue; sometimes they changed their musical expertise towards genres not mentioned in this book. Appropriate notes have been added to the label information.
