## The Coven 10.10.2009 - The Switch Club Reunion

### Fucking WOW!

There's not much more I can say about the night really. I knew it was probably going to be busier than the last few months, but 255 people? Apart from the fact that The Hat Factory bar can never really cope with too many people in one go, even with the extra bar open, the night was a total success from start to finish. Apologies if Loopy & I never got a chance to say hello to you, but here just wasn't enough time in the night, even with the extra hour!

Always great to see/hear DJ Nick Switch back behind the decks, with a great two sets of classic Switch tunes from all the different periods of the past club nights, even if we did receive a complaint about the music from one pratt who obviously missed the point of the whole evening!

One last, but very big thanks to all that supported the night, and you'll be pleased to know we'll be back on Saturday 14th November with guest DJ Martin Oldgoth back once more for another great night of the gothic/deathrock/punk/80s (and maybe a little industrial) genres.

We hope to see you there.

### All Pics Here

Oh, and before anybody asks, we've **no** plans to run a RedEye reunion!
